Vulnerability Scanning Packages

Most organizations have a number of public servers that may not be patched regularly and may therefore be susceptible to attack. Web servers are the most commonly vulnerable systems on any network but there are many other threats including rogue devices, malware, etc. Knowledge is power and as such, an understanding of threats and exploits is crucial for these systems as well as notifications of problems as they arise.

While we recommend intrusion prevention systems for immediate threats, eDrivium is also a strong proponent of regular scans. With regular vulnerability scans, you will be able understand your where you are at risk in order to make an informed decision around risk management.

Internal Scan - Scope of Service:

Coverage: Internal Scan of up to 256 IPs.

- Windows and UNIX vulnerability scanning
- Identify shares
- Identify missing patches
- Identify obvious misconfigurations
- Report including many fixes for vulnerabilities reducing the amount of consulting time required for remediation

Deliverables:

Internal scan report and recommendations for optimization based on the findings.

Cost:

The cost for the above scan using at eDrivium's discretion, a commercial tool set will be $7,995 per 256 IPs.

External Scan - Scope of Service:

Coverage: External Scan of up to 8 IPs.

- Scan for open ports
- Scan for services such as Telnet, HTTP, SNMP
- Determine if IOS or firmware version can be identified

Deliverables:

External scan report and recommendations.

Note: This is not a full-blown firewall review, merely an external scan.

Cost:

The cost for the above scan using at eDrivium's discretion, a combination of tools possibly including open-source tools: Nessus, NiKTO, Whisker, and NMAP, and commercial tools will be $2,995 per 8 IPs.

Sign-off

I the undersigned agree to proceed with eDrivium's internal and external scan proposed to with in this document. I further agree to the terms and conditions outlined on the reverse page of this document. I am authorized to bind the company below (listed under "Company name" and do so within the terms and cost specified in this document.

_____
Name of authorized person

_____
Signature of authorized person

_____
Title

_____
Date signed

_____
PO number

_____
Company name

_____
Desired start date

_____
Desired completion date

Above PO number covers (please check applicable box):

☐ Internal Scan Only
   Number of IPs _____

☐ External Scan Only
   Number of IPs _____

☐ Internal & External Scan
   Number of IPs _____

Approved by (eDrivium authorized representative) _____
